V.A. - Now it's dark: DAVID LYNCH tribute CD [KultFront KF-XVII] : a Russian compilation full of dark cinematic ambience with many new names...
DAVID VELEZ & BRUNO DUPLANT - Moyens Fantômes CD [Unfathomless U33] : most bizarre music from damaged mass media devices, the ghost of sounds that normally don't exist!
JEREMIE MATHES - Fallow Memory CD [Unfathomless U31] : field recordings from a huge empty silo tank, continuation of this piece on "drone-mind Vol.4"
ZINC ROOM - Window of Eric Zann CD [Evil Dead Productions EDP 018] : killer old school metal-percussion industrial from Siberia
IONOSPHERE - Stellar Winds CD [Power and Steel PAS 40] : cosmic post-industrial ambience, re-issue of album from 2007
URBAN SAX - Urban Sax 1 LP + DVD [Wah Wah Records LPS152] : a full droning sax orchestra? yes.. re-issue of LP from 1977
AMON - El Khela Al`Akhdar do-CD [Eibon Rec. AMN005R] : re-issue of this dark ambient classic, now with full bonus CD of rare tracks
AETHENOR - Hazel LP [VHF Records vhf#140] : the amazing psych improv "jazz" drone combo with STEPHEN O'MALLEY, the 5th album
SEARCH ENSEMBLES - same CD [and/OAR] : DALE LLOYDs project collecting field recordings and instrumental sounds from various artists all over the globe to construct strange archaic ethno tracks...

2016  
re-issue of AF URSINs second LP from 2005, for the first time on CD! => the four delicately woven, mainly handplayed drone muzak pieces contain piano slices, smooth vocalizations, harmonium & zither (?) sounds, lightweight percussion and bass-textures and levitated analogue electronics, everything arranged in a very sensitive way... a real gem! €15,00 blackesteverblack.com

4  AGLAIA - Primeval Nebula  
CD  
Hic Sunt Leones  
HSL 073  
2014  
AGLAIA stands for the "warmer" and most subtle ambience you can imagine, it drifts like cotton wool clouds through the air... drones and waves holding and protecting you like an endless instrumental cradle-song, reflecting the beauty and magic of a long forgotten primeval / prehistoric nature... highly recommended if you need a warm bath of sounds!! 13 tracks, 66+ min. €15,00 https://aliodie.bandcamp.com/album/primeval-nebula

5  AMON - El Khela Al’Akhdar  
do-CD  
Silentes Minimal Editions SME1664 / Eibon Rec. AMN005R  
2016  
when this CD appeared in 1996 it seemed it could become a dark ambient milestone like some works of LUSTMORD or YEN POX, though Drone Rec. artists AMON ("Aura" 7"/DR-29/ 1998) sounds much more subtle and ghostly,- "with the minimal, but effective dark ambient soundstructures the listener is taken to a journey into the archaic heart of darkness. 1000 miles away, calming and alien"; this well deserved re-issue comes with a full bonus CD of rare material 1996-2004, including the Drone EP!! €16,00 www.eibonrecords.com/releases/amon_elkhela.htm

6  ARKTAU EOS - Mirrorion - Telegnostic Edition  
CD  
Aural Hypnox  
AHSM09  
2016  
deluxe re-edition of the phantastic first ARKTAU EOS album from 2006 => music as a gateway to the OTHERWORLDS => all sounds were created without electronics on archaic instruments or using elemental sources as water, wind, wood, metal, invocations... music as coming from deep catacombs, sometimes very powerful and demonic, then almost smooth and ambient, with dark folk elements in between... oversized screen print cover, 8 panel booklet, eight full colour cards!! €15,00 www.auralhypnox.com

7  ARTIFICIAL MEMORY TRACE - Hypnotikon (AustralOpus 2)  
CD  
Unfathomless U32  
2016  
so far unpublished (slightly processed and layered it seems) field recordings from Australia (made in different National Parks), focusing on the nightly noises and "chorals" from the insects, very strange organ like drones appear and incredible bird sounds...we think the central piece MORF (31+ min.) is one of his best tracks ever! "Relentless and hypnotic choruses of insects pulsate in tandem with the rush of high-tide" 5 long tracks, 79+ min., lim. 200 excellent design with artcard €14,00 www.unfathomless.net

Chutes

just impressed us completely with his LP "Drachen";
"Chutes" is an album using material from his live solo
performances as source material, again a very own form of
suspended "electro-acoustic" electronica is manifested, with
wonderful clear details and strange morphing effects..

EINSTÜRZENDE NEUBAUTEN
- Live at Rockpalast 1990

for the first time on (clear) vinyl: NEUBAUTENs concert at
the famous German "Rockpalast" series in 1990; deluxe
gatefold sleeve
this album by EIG is mainly based on the ever fascinating
sounds from radio - it's waves and ether sounds and
interferences of voices, strange magnetic tones, etc..
combined with softly shimmering guitar harmonics,
immersive and secretful floating dream drones are created in
the special EXIT IN GREY way.... the two long gems were
already recorded in 2011 and finally find a home on this CD;
lim. 300, numbered, 8 page booklet

GENETIC TRANSMISSION - R.E.T.R.O.

older album of this Polish noise project, known for creative
"handmade" sound generation (stones, glass, metal, field
recordings & instruments), combined with old Soviet
anologue devices... adventurous sounds and arrangements
to explore!

LILES, ANDREW - My long accumulating Discontent  
CD  | Nextera ERA 2035-2  | 2004  
A stunning early album by the British master of surrealistic, unsettling ambient atmospheres, combined with human voices and concrete elements a somehow "nostalgic" sound is formed reminding both on NURSE WITH WOUND and DAVID LYNCH films, ending with a melancholic folk-song.

LILES, ANDREW - The Power Elite  
CD  | United Dairies UD 26658CD  | 2016  
A second album for LILES on the legendary UNITED DAIRIES (NWW label), a very political and dark release evoking claustrophobic feelings. "an unexpected foray into modernist composition, adopting influences from the vanguard of '50s and '60s avant-garde..."

LINGUA FUNGI - Flowery Dreams  
CD  | War Office Propaganda WOP 23  | 2006  
"subconscious ethno/folk drone" project, mainly created with real instruments (flutes, guitars, bass, mandolin, various percussion tools). "Magical journey through the strange dreams in beautiful flowery scenery, drifting and melting. No sharp line between sorrow and joy, dark and bright moments..." long waving organic ambience for fans of ALIO DIE, JÜPPALA KÄÄPIO, ORIGAMI ARKTIKA, ethereal TROUM, etc..

LINGUA FUNGI - Tlapallan Pantonal  
CD  | War Office Propaganda WOP 32  | 2007  
The second album by LINGUA FUNGI is inspired by the myth of QUETZALCOATL, the snake-god of the Mayans and Aztecs; 7 tracks of nicely arranged ethno and ritual ambience combining electronics, samples and instruments, it often sounds very musical and harmonic, but this also builds a nice mystic atmosphere...

LUNCH, LYDIA & MARC HURTADO - My Lover My Killer  
do-LP  | Munster Records MR361  | 2016  
"a late night noir confessional" - re-pressing of the RSD2016 release, this collaboration between the ETANT DONNES half and LYDIA LUNCH, feat. members of GALLON DRUNK; texts are based on a story of a self-destructive love ending up in murderer& suicide...

LUSTMORD - Dark Matter  
CD  | Touch TO:102  | 2016  
New recordings created end of 2015 inspired by the 95% "unknowable" of the universe which humans define as "dark matter" or "dark energy", derived from an audio library of cosmological activity collected between 1993 and 2003 (including NASA sources): interstellar plasma and molecules, radio galaxies, pulsars masers and quasars, charged particle interactions, etc... => dark ambient with a strange 'dehumanized energy' flowing through, another masterpiece!!

MANINKARI - Oroganolaficalogramme  
CD-R  | Ferme-foeil 01  | 2016  
A rare self-released CDR by the great brother-duo from Paris => "Oroganolaficalogramme" surprises with solemn organ tunes, additional violin and dark rumblings, no percussion appears, a very floating and droning release that gets more and more dense and dark as it continues...as usual high class stuff!! lim. 100 numbered copies only, 7 tracks 40+ minutes, oversized poster cover.

<td>2015</td>
<td>Drone Records artist JEREMIE MATHES (see Drone-Mind Vol. 4) is back and this wide spatial one-tracker (43+) sound almost like a continuation of his piece on the LP - these vast reverberating field recordings with a far away deep bass and incredible metallic sounds come from a huge empty silo tank at an abandoned industrial complex in South of France, undertaken in complete darkness... lim. 200 French composer who studied musique concrete at the GRM in Paris with his second CD for Baskaru - by using and transforming quite ordinary field recordings, he wants to &quot;earthen&quot; drone music and make it textured and more dense....&quot;There is fine vibrancy in the pieces by Mieville, shifting back and forth, ignoring strict classical rules of composition. areas, a mixture of harmonic guitar drone & symphonic dark ambient, like AIDAN BAKER or TROUM meeting DESIDERI MARGINIS or ARCANA ? 4 tracks, 47 min.

US-Japanese mail collaboration that took 2 years to finish, for these soundart/noise artists known for their radical music with ZENI GEVA, WOLF EYES and SUNN O))) => very harsh and abstract cut up electro-noise, filled with magnetic sounds and pulses... 10 tracks of great power, tension and lots of details... really challenging radical noise that has an almost ecstatic and cathartic effect !!

"The Dreams die young"... collaboration project of PETER BJÅRGÒ (SOPHIA, ARCANA) and EMPUSAE (known from Hands & Ant-Zen releases and as IN SLAUGHTER NATVES live member), who transformed BJÅRGÒ’s source material collected through the years into stunning six lyrical SONGS full of dark waving harmonies and wonderful atmospheres...depression and beauty united! lim. 600, oversized cover

Australian drone ensemble formed by TIM CATLIN, based on the sounds of his self-made VIBRISSA instruments (metal/aluminium rod instruments that are longitudinally stroked by hand to produce ethereal “singing” tones) => on four tracks subtle and microtonal, very high pitched, metallic drones are build, varified through the use of additional singing bowls, wine-glasses, scuba gongs, e-bowed guitars, etc... a very special form of drone experimentation, beautiful and demanding!

first ever vinyl edition of the third PAINKILLER studio album, their "opus magnum" from 1994 with the original line up: BILL LASWELL (bass), JOHN ZORN (sax) and MICK HARRIS (NAPALM DEATH, SCORN) on drums!! the final studio recordings under the name PAN SONIC, recorded 2005-2011: the 12 tracks (67 min.) were used as a film soundtrack to a Finnish documentary about the building of the first nuclear power plant since 1986 in Finland... very cinematic and full of tension, the film & soundtrack have won several prices already and could be watched at ARTE and German television, etc..
