  LOPEZ, FRANCISCO - Untitled (2012-2014) do-CD [Purple Soil]: 16 very varying tracks showing the variants of 'absolute music' and pure sounds in the LOPEZian dimension... "but once the brain has dropped its urge to comprehend you become immersed in vortices of vibrations whose hidden qualities emerge continuously, almost like the ego death of a psychedelic experience." [Russel Cuzner, The Quietus]

  MOLJEBKA PVLSE - Discourse on Lightness f CD [Reverse Alignment]: three long full droning tracks, thematically inspired by the semantics of "light"...

  CREATION VI & UHUSHUHU - “∆” CD [Muzyka Voin]: mystic transcendental drone ambient of the highest beauty and spatial vastness...

  GUZIK, ARIEL - Cordiox LP [VON Archives]: fascinating drones from an incredible (4 metres high) self-build machine powered by a huge quartz, recorded at the Biennale in Venice 2013

  KASSEL JAEGER - Onden CD [Unfathomless U37]: subconscious drones made from "hidden field", a forgotten district in Tokyo

  BREAKLAB - Reet 12” [ZCKR]: sonorous, multi-layered drones with experimental approach by this North-German newcomer

studio recordings made 2011-2015 in Oulu, Finland and Italy, feat. first CD by this new project formed by the legendary JUSTIN BROADRICK (GODFLESH, JESU, FINAL, GREY MACHINE, TECHNO ANIMAL, etc. etc.) and DERMOT DALTON (IROHA, CABLE REGIME, JESU...), who use analogue synths, tapes and effects, inspired by the Russian ice-breaker 'Arktika' who was made to find a path through the ice of the Northern Sea Route... "blends heady synth sunrises with deep bass manoeuvres over dub riddims."

mystic ethno-ambient from two of the "new wave" of Russian drone-ambient projects in collaboration, this beautiful one-tracker is loaded with handplayed drone instruments, nature sounds and ethereal chants, reaching a great spatial quality and vastness... reminds very much on VOICE OF EYE, LUNAR ABYSS, VRESNIT, etc... The third album by the British (post) industrialists appeared in 2000 (CD-R, EE Tapes), only two years later the TESCO sublabel Functional issued it on a proper CD; very appealing ambient noise compositions, swirling drones with lots of electronic effects mixed together in an interesting way, never too noisy, never too lush, this is quite powerful ambient Industrial! BACK IN STOCK FOR SPECIAL PRICE ! Re-issue of the very first DUMIZIO LP from 1989 - raw and overtopping, at times almost wild noise &amp; drone experiments, but also more quiet pieces, pointing already out to later, more ambient works... BACK IN STOCK an almost ecstatic field recording mix can be faced on this new work by FIVE ELEMENTS MUSIC - sound sources come from a trip to Croatia, capturing the town (Dubrovnik) and the Lokrum Island; the result is a loud atmospheric and complex drone-scape, where the electricity hums and insect sounds, the vibrations of nature &amp; civilization merge in a mesmerizing way... lim.</td>

12inch Verstand Recs. 2017

200, full colour cardboard cover with inlay card this one-sided 45 rpm 12” documents the full live show (14 min.) of GEHIRN.IMPLOSION in Augsburg (Germany) in January 2017: blasting white noise frequencies are contrasted with occasional snippets of distorted German Schlager and nursery rhyme songs, for a bewildering effect... sounds also good (much more smooth and droney) on 33 rpm; hand assembled cardboard cover with photo and colour inlay presenting lyrics, only 95 copies were pressed !

CD Gterma [gterma047] 2016

MATHIAS GRASSOW is one of Germany’s deep ambient pioneers, his first releases date back to 1986; this favoured 4 track album was privately issued in 1998 as CDR and is finally released in proper form... extremely minimal and only slowly changing synth-drones with hypnotizing overtune and bass waves..... when music turns into an ”agent of transformation”

29 **GUZIK, ARIEL - Cordiox**

LP VON Archives VON 023 2016

rare LP by this highly interesting Mexican sound artist and researcher, who invented for this recording an incredible (four meter high) stringed instrument driven by magnetic forces through a huge quartz cylinder inside (producing piezo-electric effects), an acoustic tower that plays itself, resulting in beautiful metallic sounding resonances and drones; the “Cordiox” has 172 steel strings of 4 m. length inside and reacts to any vibrations of the environment, too; utterly fascinating!! KARKOWSKI, ZBIGNIEW - The last Man in Europe

LP Erratum EM 016 2017

€17,00 www.erratum.org

two extracts from KARKOWSKI's final performance (31. Oct. 2013) when he played live to the "1984-THE LAST MAN IN EUROPE" BBC TV production from GEORGE ORWELL (1954) at London's Horse Hospital, 6 weeks before his death...=> pure sinus-tones vibrations, oscillations and drones with high dynamics and often piercing quality, ebbing and flowing... "Few releases in experimental and noise arenas can really invade the mind the way The Last Man in Europe does."

[Noise Beneath..]

KASSEL JAEGE is becoming the master for subtle and mysterious, somehow 'subconscious' drone muzak.... ONDEN means "hidden field" and is the name of a forgotten district in Tokyo, where the basic recordings for this composition were made: electromagnetic sounds from electric devices of a big town, plus the nocturnal field recordings of empty streets, the murmurs, the insects and animals, the silence... lim. 200 cardboard art cover with inlay

KELLER, BEAT & DARIUS CIUTA - A2

CD-R Attenuation Circuit ACK 1029 2016

€6,00 https://emerge.bandcamp.com/album/a2

recommended collab. by Swiss (jazz) guitarist BEAT KELLER with Lithuanian DARIUS CIUTA , they create high pitched resonances and feedbacks plus object and shortwave sounds, very focused and slow and ZEN-like, with unusual sounds all around... "Sounds move in, out and around in what could be a fairly random fashion and appear in all sorts of strange overlapping configurations. This was a great release of some excellent, different approaches." [Vital Weekly]

KG AUGENSTERN - Tentactles

BOOK & CD Gruenrekorder GRUEN 170 2016

€13,00 www.gruenrekorder.de

recordings from "under the bridges" during a trip on a ship that travelled from Berlin to southern France, the bridges were touched with tentacles to reveal their personal soundprofile... the artists group KG AUGENSTERN created this mixture between a permanent sound installation (tentacles) and field recording journey, plus two
sound exhibitions, nicely documented in a 42p. page book with photos, maps and travel notes: Berlin-> Nijmegen-> Paris-> Lyon-> Montpellier located between traditional East-European folk music, (night bar?) - Jazz and Improvisation this 5 piece ensemble with BORIS KOVAC (who comes from former Yugoslavia) creates very sublime and emotional pieces (on saxophones, accordion, bass clarinet, double bass, drums, piano), somehow very nostalgic - this is the music that can drive you to tears after a while and you don't know really WHY... fans of NECKS or BOHREN should check this out!

do-CD Purple Soil - purplesoil 008 2017

€15,00 https://www.facebook.com/purplesoil-records-181265632856/
A biologist and composer, always working with self-captured environmental sounds from nature or objects, or raw material of others... his 'absolute music' may lead to 'absolute listening', where a new consciousness begins... "almost like the ego death of a psychedelic experience" [Russel Cuzner, The Quietus]

A collection of field recordings from Sri Lanka, showing a great variety of obscurist sounds from whatever environment and whatever source, all material seems to be unprocessed and pure, but you often don't know what happened; a crazy concerto grosso of dogs, microsound cracking, strange rhythmic knocking and slapping, materials squeaking and hums coming from nowhere... definitely NOT the typical field recording album, this holds lots of wondrous sounds to discover...

This is the follow up album to the CD from 2015, containing two side long tracks of MERZBOW "psychedelic" direction, feeling like a brutal hallucination after a while... lim. 500

Second tape release for a new project by FRANS DE WAARD, analogue buzzes and drones manifesting in various types of pulsing waves and minimal repetitions, reaching out for a kind of 'mosquito drone' and beatless techno, it all sounds improvised and spontaneous and very "direct"...

Three long full droning tracks, thematically inspired by the semantics of "light", establishing three different approaches => most sonorous, multi-layered drone waves that seem to burst of light, more mysterious and slow drone rays with surprising orchestral sounds; and very subtle, almost otherworldly flowing patterns with beautiful shimmer... a light drone masterpiece! 3 tracks 66 min, lim. 300, 6 panel digipack

On "Tongues", JON MUELLER focuses on somehow "shamanistic" vocalizations, breaths and chants, which form - together with the usual percussive drift - two strong trance inducing pieces, the first side being more expressive, the second more subtle and transcendental... very special, powerful, surprising stuff feat. guest musicians CORY ALLEN and WILLIAM RYAN FRITCH on harmonium, tanpura and sarangi; lim.

<td>ORA was the project of ANDREW CHALK and DARREN TATE, with permanent guests COLIN POTTER and DAISUKE SUZUKI, creating a kind of 'impressionistic drone ambient' merging various field recordings with analog electronics and instruments (like flutes, percussion, harmonium) in a highly evocative way; this is a collection 15 rare (mainly studio) tracks done 1986-1994, now sequenced and arranged by ANDREW CHALK into a full-length album.</td>

coming from the GRM, originally he worked first as a sound engineer for French TV in the early 50’s... on CD 1, three so far unreleased pieces: "L’echo du Miroir" (1980-2008), "Adagio" (1980), "Un arbre... c'était le mien!" (1987), on CD 2 a full disc of sketches and preparatory works for future compositions (30 indexes on CD 2!)

first collab release by the Italian sound researcher FABIO PERLETTA with A. TIETCHENS, a journey into micro-cosmic sounds and drifting nano-structures, citing Lucretius atom theory... "die beiden reflektieren darüber mit mikrofeinen Kollisionen und zuckenden oder feinmetallisch klackenden Geräuschen auf dröhndem Fond. Wie 'Wimpern'- und Geißel-Schläge von Pantofeltierchen in einem mal heller, mal dunkler getönten Urmeer." [Bad Alchemy]

finally in stock this collection of rare material and compilation tracks (1995-2011) by the excellent Swiss performer and composer who often reaches an intensity and tension that could only compared to mid-phase ETANT DONNES; his "psycho-acoustics" contain special shock treatments but also extreme animalic / organic / body sounds and vocals, plus unusual field recordings... all in all a fascinating journey! (full 150 min. of material, feat. one video-track)

epic new release (playtime over 2 hours!) by Russians high requested 'Tibetan shamans', with the central piece "Laughter Of To-Nag-Ma" filling the whole CD 1; "Channeling the void with their eerie and engulfing overtone ritual chants rooted in the BON tradition of Tibet, their mesmerising rituals are used as a tool of transmogrification. The chanting meditations are accentuated by the use nga drums, rolmo cymbals, gyaling oboes, as well as telescopic dunchen horns, dunkar shells and short wandun horns”

debut tape for a promising experimental drone / sound / noise project from Southern Germany (Allgäu), electronic low end bass drones and pulses appearing in very slow movements and fragments, gradually some kind of structures and harmonic levels are build, found vocal sounds, slow motion beats and other processed (ethic?) noises join into the low fi muzak, always subtle

shimmering tracks that appear even more melodic and melancholic (almost shoegazing) than on the first two albums, think of early 4AD or PROJEKT Records artists, or LOVESLIESCRUSHING... completely elevating...

very peaceful ambient-collaboration mainly based on perfectly arranged synths, neo-classic elements meet drone ambient minimalism, but also more broad waving atmo clouds appear... always harmonic and slow, full of nostalgia and melancholy, music for peaceful, isolated landscapes... for fans of CELER, ALIO DIE, or more harmonic TROUM... lim. 200

coming from the Swedish techno and DJ culture, SLIM VIC creates deep ambient drones combined with strange electronic tones and slow hypnotic pulses; like techno tunes stuck in a hundredfold slow motion dream... the psychedelic / colourful artwork was created especially for this music by ROLFCARLWERNER, a prominent spraypainter in Sweden... an excellent long play 12" crossing the genre borders between electronica and dark ambient industrial

the 'shoegaze ambient' return of the year - 22 years after their last album, SLOWDIVE are back with 8 new songs... "Slowdive, however, now sound powerful, confident, the band they always wanted to be. All phases of their short career are toyed with: the dense proto-gothicism of the early EPs, Souvlaki's elegant swaddle-pop and the eerie electronica of Pygmalion" [The Guardian]; this is the lim. silver vinyl gatefold edition
